

ClassBuddy™ Desk

Installation Guide

LapSafe® 

2019 v2.0

Introduction

This guide will take you through the steps to install your LapSafe™ ClassBuddy® Desk. For guidance on set up and use please refer to the User Manual supplied with your unit.

Tools required

- Screwdriver/Power Driver

Weight

20kg

Copyright Lapsafe® Self Service Solutions

Step 1: Stand Up

Once unpacked, stand the unit up and ensure you have a clear working space around all sides.

Step 2: Unscrew Rear Panel

On the rear of the ClassBuddy™ desk there are 10 screws, unscrew all of these and store the screws and washers in a safe place.

Step 3: Disconnect Earth Cable

Slowly start to remove the rear panel to gain access to the connected earth cable. The cable should pull off of the rear panel.

Step 4: Load Your Devices

You are now ready to load your devices. See the Charge Only Set Up section of the User Manual.

Step 5: Secure Rear Panel

Reconnect the earth cable you previously disconnected and refit all 10 screws back into place.

Securing to a Desk (Optional)

It is possible to secure your ClassBuddy™ Desk down to the desk. To do so you will require 4 x M4 bolts (not included).

The drilling pattern is 392mm x 338mm but please allow at least 40mm from the rear of the desk.

Remove the feet fixing screws from the ClassBuddy™ Desk and secure through the desk into the holes from the feet fixings. Retain the feet in order to maintain a ventilation gap.

Complete

Your new ClassBuddy™ Desk should now be successfully installed and ready to use. Please refer to the User Manual that is supplied with your ClassBuddy™ Desk for further information. Please read the Health and Safety guidance in the User Manual.
