SmartLine™ Charging

Our Integrated Charging Cables

Our patented SmartLine™ charging with PowaSave™ features our unique ultra-safe, low voltage, built-in charging cables that are specific to the make and model of laptop, Chromebook or similar devices, eliminating the need for AC adaptors.

Upgradable

Easily upgrade your locker if you change your devices in the future

Power Saving

Our PowaSave™ automatically turns off charging when devices are fully charged

LED Indicators

LED indicators display charging status and availability of devices

Built-in Charging

SmartLine™ eliminates the need to use AC adaptors

Power Management

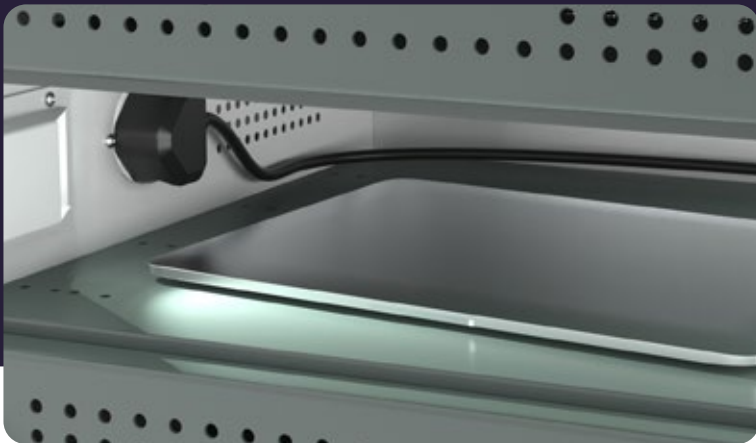

SmartLine™ includes protection for in-rush, power surge and residual voltage protecting the user and the devices

Supports
USB-C

Bring Your Own Device

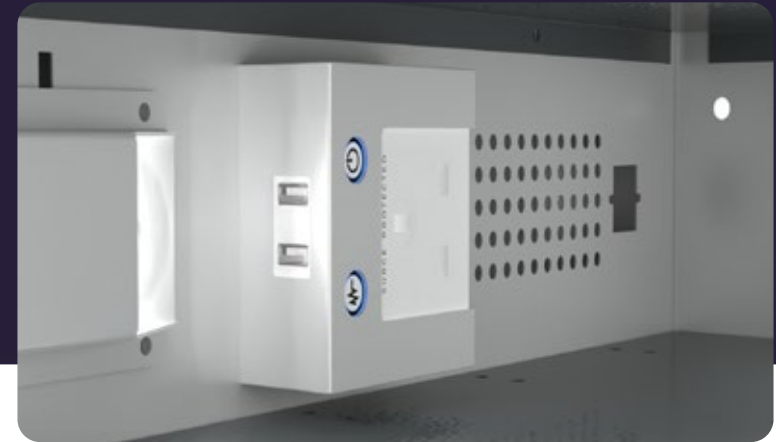

Charging Options

ChargeLine™

Plug Socket Charging

Our ChargeLine™ charging solution uses the devices own AC adaptors. Standard UK 3-pin or Euro plug sockets are conveniently fitted in each locker bay allowing easy access to devices.

ChargeLine™ Ultra

Plug Socket & Twin USB Charging

Where BYOD lockers are required our ChargeLine™ Ultra charging method is an ideal solution. Up to three devices can be charged using USB or standard mains socket fitted into each locker bay.

LapSafe®'s power management system incorporates three key areas of protection; soft-start, surge, and residual voltage. These provide the highest level of protection for the user, your equipment and electrical circuits.

**Euro version available*

Locking Options

Locks To Suit Your Needs

The Diplomat™ range can be secured with a variety of locking options to suit your requirements.
