

FLEX™ LOCKERS

Personal Storage & Charging

LapSafe® 

The FLEX™

Flexible Personal Storage Locker Range

The LapSafe® FLEX™ range of personal storage and charging lockers has been designed to support agile working by maximising workspace and allowing users to access individual charging locker bays at any time.

Flexible Locker Sizes

Different locker sizes available mix and match as required

Charging

Plug socket and twin USB sockets per bay

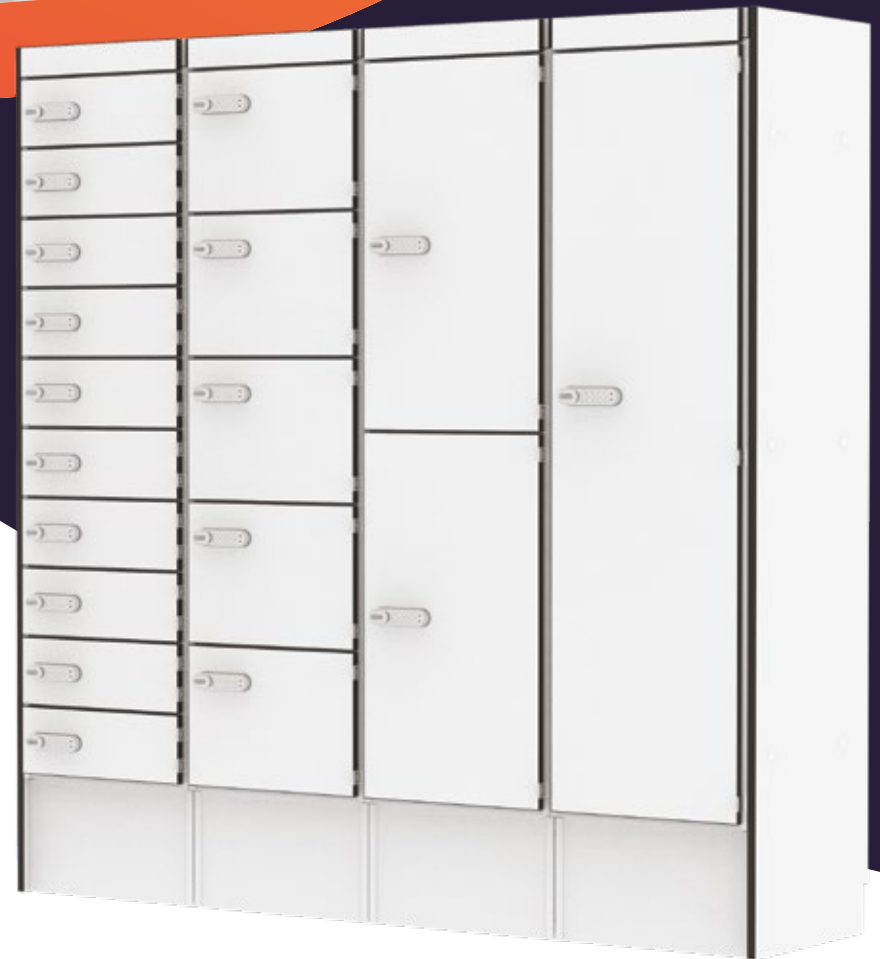

Colour Options

Change the colour style to match your building interior

Personal Storage

Variety of bay sizes available to store personal items like bags

Flexible Locker Sizes

To Suit All Storage Requirements

Choose from three chassis widths and four door sizes to suit your device and belongings; such as a mobile phone, tablet, laptop or bag.

An unlimited number of locker towers can be installed making this a very flexible solution.

FLEX™ Locker towers are 1858mm tall and 475mm deep

250mm

Locking Options

Locks To Suit Your Needs

Individual locker bays can be secured using a choice of locks which range from simple hotel safe style locking to sophisticated RFID and managed PIN code locks.

- PIN Code Locks
- MiFare Locks
- Online Generated Codes

See our lock brochure for full details on our locking solutions.

Safe Charging

Plug Socket & Twin USB Sockets

Residual Voltage Protection

Over Current Protection

Soft Start Power Management

Charging is built in as standard, a three pin UK* mains socket and a twin USB socket is fitted into each locker bay.

LapSafe®'s ultra-safe power management system ensures that all devices are safely charged simultaneously in the fastest possible time.

**Euro socket available*
