

Mentor™

Intelligent & Secure Charging Trolleys

LapSafe® 

Mentor™

Intelligent Storage & Charging Trolleys

Our flagship Mentor™ range provides the very highest levels of security as well as intelligent charging of devices such as; laptops, Chromebooks, Microsoft Surface, tablets and similar devices.

The Mentor™ trolley range offers three types of charging, our unique, patented SmartLine™ (requires no AC adaptors), ChargeLine™ (uses device own AC adaptors) or USB 'Charge Only'.

All devices are stored and charged in horizontal bays in modules with fixed shelves, avoiding the instability caused by pull-out shelves.

Lifetime Warranty

Complete peace of mind with LapSafe® lifetime warranty see lapsafe.com/warranty for full details

Smart Charging

SmartLine™ charging with built-in cables available

Secure

One of the most secure charging trolleys on the market

30 Chromebooks / Tablets

Midi Mentor™
20 Laptops
40 Chromebooks / Tablets

Mentor™
30 Laptops
60 Chromebooks / Tablets

SmartLine™ Charging

Our Integrated Charging Cables

Our patented SmartLine™ charging with PowaSave™ features our unique ultra-safe, low voltage built-in charging cables that are specific to the make and model of laptop, Chromebook or similar devices, eliminating the need for AC adaptors.

Upgradable

Easily upgrade your trolley if you change your devices in the future

Power Saving

Our PowaSave™ automatically turns off charging when devices are fully charged

LED Indicators

LED indicators display charging status and availability of devices

Built-in Charging

SmartLine™ eliminates the need to use AC adaptors

Power Management

SmartLine™ includes protection for in-rush, power surge and residual voltage protecting the user and the devices

Supports
USB-C

ChargeLine™

Charges Devices With AC Adaptors

ChargeLine™ uses the devices own AC adaptor plugged into a standard 3-pin, 13-amp socket to charge devices (Euro sockets available). The socket is situated at the front of each bay so that there is no need to reach around the rear of the unit to plug in the AC adaptors, making them easy to remove if required.

For complete safety, the trolley automatically shuts off power to the sockets as soon as the doors are opened.

USB

Charges Devices With USB Cables

USB charge only modules allow tablets such as iPads to be charged at full rate. Users connect their own USB cable to the conveniently placed USB 2.0 sockets at the front of each storage and charging bay.

Security

Keep Your Valuable Devices Secure

Constructed of a fully welded steel chassis that reduces points of weakness. Anti-jemmy plates fitted to the top and bottom of the doors combined with reinforced locking and full length piano hinges make the Mentor™ range one of the most secure trolleys on the market today.

Anti-jemmy Plates

Anti-jemmy plates fitted to the top and bottom of the doors

Continuous Hinges

One continuous hinge to prevent access via the doors

Steel Chassis

Constructed of a fully welded steel chassis thus reduces points of weakness

Quad Locking

Reinforced locking system with four points of locking. Separate key for administrator rear access

Security Hole

Fix the Mentor™ to a location using the security hole

Mentor™ Desk

Secure Desktop Charging Cabinet

In situations where a small number of devices need to be stored and charged, the Mentor™ Desk is ideal. The Mentor™ Desk can hold up to five laptops or 10 tablets or similar devices.

This neat desktop charging cabinet can be secured to a fixed location and is constructed of fully welded steel.

Both SmartLine™ and ChargeLine™ charging is available and can be upgraded when required.

Up to 5 Laptops

Store and charge up to 5 laptops

Up to 10 Tablets

Store and charge up to 10 tablets or small laptops

Future Proof

Upgradable when your devices change

Secure

Fitted with high security lock
